Our Businesses

Refinish & Aftermarket

Our refinish systems are designed to enable independent body shops, multi-shop operators and auto-dealership groups to make vehicles look like new. With an array of paint colors and tints, color-matching technologies and customer support, our industry-leading products and services are available around the world to help refinish technicians achieve perfect results.

Mobility

Through our Mobility Coatings segment, we provide coating technologies for light vehicle and commercial vehicle OEMs. Our global customers face evolving megatrends in electrification, sustainability, personalization and autonomous driving that require a high level of technical expertise. Our Mobility team meets OEM requirements for efficient, sustainable coating systems that can be applied with a high degree of precision, consistency and speed.

Industrial

We offer a variety of industrial liquid, electrocoat and powder coating solutions that serve a wide array of industrial segments including those manufacturing industrial and electrical system components, oil and gas pipelines, wood applications, agricultural, construction and earth moving equipment, rail cars, structural steel, and sports equipment. Our coatings are designed to prevent corrosion, increase productivity and enhance durability.
